

Indicator #14 - Post High School Outcomes Survey

Indicator #14: "The percentage of youth who had IEPs, are no longer in secondary school and who have been competitively employed, enrolled in some type of postsecondary school or both within one year of leaving high school."

Data collection for Indicator #14 is a two-year process

Year 1: Special Education Procedural Compliance Self-Assessment Year

The Wisconsin Post High School Outcomes website (www.posthighsurvey.org) is used to complete all of the data collection and reporting requirements of Indicator #14. All data collected will be via the website and all [Survey Instruments](#) and [Survey Directions](#) are provided on this website.

The students who will be included in the district's Indicator #14 data are **currently** in their last year of high school, and will receive a telephone interview approximately one year after exiting high school to assess their participation in employment, postsecondary education and community activities.

There is only one required activity for Indicator #14 for this school year.

Required during district's Self-Assessment Year:

1. Go to www.posthighsurvey.org, download and complete a hard copy the [Student Contact Form](#) for each student with a disability who is **currently in their senior or last year of school** and who you anticipate or know will exit through graduation with a diploma, certificate of attendance, reaching maximum age of attendance or by dropping out. OR, if you already have contact information in a district location (e.g. electronic database), verify and maintain this information.

Keep this student contact information until it can be entered onto the Post High School Outcomes website, which is [the year following the self-assessment year](#).

Additional Suggested things you can do this school year:

1. Read additional information on [Indicator #14](#)
2. Browse the [Post High School Outcomes](#) website features and become familiar with the survey components.

Year 2: Completing Indicator 14

One Year After Procedural Compliance Self-Assessment Year

Students who exited your district **during the previous school year** through graduation, earning a certificate of attendance, reaching maximum age of eligibility or by dropping-out will be contacted by St. Norbert College Survey Center for a telephone interview. Former student responses will be used to report district outcomes results and fulfill the data collection requirements of [Indicator #14](#).

Required One Year After Self-Assessment Year:

To complete the data collection and reporting requirements of Indicator 14, districts are required to use the tools and directions provided on www.posthighsurvey.org, to record accurate former student contact information and send the former students a personalized letter describing the upcoming interview.

The following are the timelines and activities required this year:

Timelines	Activities to be Completed This School Year
October - March	Verify district ISES Federal Student Data Report (3rd Friday in September)
October - January	Collect or update your Student Contact Forms (paper or electronic copy) or database
February	Complete the Usage Agreement and receive a Username and Password for website access
February-March	Enter the student's phone number(s) and special comments for calling onto the website
March-April	Personalize Student Letter and mail to former student along with WDPI Letter
April-June	St. Norbert College Survey Center contacts former students for a telephone interview
April - June	Review district data and web reports following completion of interviews
July	LEA and statewide Indicator 14 data are gathered directly from the website
July	Statewide outcomes data are available on the website
